International Coal Co. Awarded 70,000 Tons Coke Contract for 1933

90 Coke Ovens to Be Placed in Operation at Once and Glare of Ovens Will Light the Midnight Sky

THIS IS GOOD NEWS FOR EVERYONE IN COLEMAN

Soon there will be the glare of a hundred blazing coke ovens lighting each midnight sky. Men will sweat at honest toil in making red-hot coke. It will be hot work, difficult work too when sub zero temperature will cause a man to freeze on one side while he will almost cook on the other, but it means work which will pay decent wages instead of relief doles throughout the coming winter. The weaving will not stand much chance of stoking coke ovens, for his fight will be with a shovel and a poker and in just as hot or even hotter temperature than in the stoke-hold of a battleship driven at full speed.

Not since 1917 have the batteries of 216 ovens been in use by International Coal & Coke Co. Ltd. Prior to that year large orders were shipped to the British Columbia Copper Co. at Greenwood, B. C., besides many commercial orders. But copper slumped, following a high output, and the need for coke was practically eliminated, as far as producing on big scale basis was concerned.

The coke ovens stood as mute reminders of what had been, of nothing more under summer skies and winter storms, of regular wages when the scale was high, and many a man who worked at the ovens during those days prior to and during the war often wished that "happy days would come again," even though the work was hard and the hours seemed long.

So long had the double string of "bee hives" down by the railroad tracks stood idle that of late years they had become regular abodes for the big army of drifters which was always on the move through the Crow's Nest Pass. Many a party of men seeking work have scraped together a few "virtualls" and with a fire of coal from the slack dump make a coke oven their temporary home. And if a box car had been broken open, the coke ovens were searched as hiding places for stolen goods, not infrequently without result.

With a 70,000 tons order for 1933 from Consolidated M. & S. Co. Ltd. for the big smelter at Trail, B.C., the old "furnaces" will regain their former glory. Machinery for loading into steel fire-proof railroad cars is being overhauled, men are rebuilding fire-brick into the ovens and best of all the payroll will show a very substantial increase. Another welcome addition to the coke business was a substantial order from the big sugar factory at Raymond. Though prosperity may still be a long way around the corner, this increased activity is an indication of happier days being on the way.

Visit From Radio Inspector

Robert Ainaloe, district inspector for radio service, of the Department of Marine and Fisheries, in a recent visit to Coleman, checked up on various causes of interference in radio reception, and where interference causes were discovered, suggested measures for their elimination.

He also granted certificates as amateur experimental operators to A. S. McLintock, Wilfrid Hoyle, Earle Price and A. E. Milley.

Good Work by Cameron School Pupils

An interesting book has been prepared by the pupils of West Cameron school, under the guidance of Miss A. Yuill, containing a pictorial history, in part, of Alberta, and of Coleman in particular. Photographs, pictures of birds and animals, of mining and other things of interest in and around Coleman, besides many specimens of plant life, are shown in the portfolio, which when complete will be sent to the school-children of Willow Creek in North Carolina. The preface, written by school pupils, contains greetings from west Cameron school, and gives interesting details of the town and district. Much time and painstaking effort was spent in its preparation.

What's The Reason?

The inconvenience of there not being a telephone in the Customs office at Blairmore has been the cause of complaints by people living in other towns who may desire to secure information. Up till some months ago, there was a telephone. For a Federal government office, this appears to be cutting things too fine, and people ask the reason why. Customs duties are sufficient heavy to stand the cost of a necessary public service such as a telephone.

United Church Notes

Sunday, Nov. 6, the minister will be in charge. He will continue the second of the series on "Worship" in the morning, when he will gather his thoughts around such thoughts as: Who comes to church, and why? Can I be just as good a Christian without the church as by entering her fellowship and throwing in my influence in the building up of the kingdom of God. In the evening the minister will preach on "The Joy of Discovery."

The junior choir will sing at the morning service and the senior will lead in song in the evening. You are cordially invited to worship. Mr. Taylor will be glad to visit any members, friends or adherents of the church upon whom he has not yet called. Please let the minister know of any families who would like a visit.

"Come, let us worship and bow down; let us kneel before the Lord our maker."—Rev. Roy C. Taylor, B.A., B.D., minister; W. Lees and J. Emmerson, organists.

Amusements for Saturday Night

Commencing Saturday, Nov. 5, a series of bridge and whist drives will commence in the Oddfellows' hall. Good prizes will be given, and refreshments served each Saturday. These gatherings proved very successful in previous seasons, and it is anticipated that quite a number of card players will take advantage of these socials to enjoy their favorite card games. 45-1p

The dances to be held in the Italian hall every Saturday night from 9.30 till midnight will prove a strong drawing card with the Arcadians orchestra. Whist drives and socials will make Saturday nights quite gay in this up-and-stepping burg. (adv't)

Closes Drug Store at Fernie

After 30 years in business in Fernie, N. E. Suddaby has sold his stock and is re-opening in the same line of business at Duncan, Vancouver Island.

The best way to be happy and successful is by useful work. Fortunately indeed is the man who has steady employment.

Remembrance Day Service in Coleman on Armistice Anniversary

Friday, Nov. 11 Will Be Public Holiday—Memorial Service in Palace Theatre 10 a.m.

On Friday, Nov. 11, at 10 a.m., the annual memorial service for Armistice Day, now known as Remembrance Day, will open at the Palace theatre. Mayor Pattinson will preside, and the local clergy will take part, with the Rev. Roy C. Taylor, of St. Paul's United church, who is a world war veteran, giving the address.

The order of the service will be: Opening: "O Canada." Memorial or Invocation prayer by Rev. A. S. Partington, rector of St. Alban's.

Hymn, followed by scripture reading, by Rev. Fr. Speikmeyer, of Holy Ghost Church.

Hymn, followed by address by Rev. Roy C. Taylor.

Hymn, "O God Our Help in Ages Past," followed by reading of Honor roll.

Two minutes silence at 11 a.m., followed by sounding of "The Last Post" and "Reveille" by Trumpeter James Lowe.

National Anthem, and Benediction by Rev. Fr. Speikmeyer.

During the service presentation of colors to the Girl Guides will be made by Rev. A. S. Partington.

The public are requested to be on time at the service. Space will be reserved for ex service men, Girl Guides and Boy Scouts, and the balance of the theatre will be available to the public.

A string orchestra under W. J. Harris will lead the singing.

Peter Smith, W. Graham, R. Parry and Bob Lloyd, Canadian Legion committee for Armistice Day service, urge all ex service men to attend the service. P. Smith, former secretary of the Legion, is planning on a meeting to re-organize the local branch.

Young People's Club Notes

The young people's club held their first social of the season on Oct. 24, at which several young people from other Pass towns were present. The first part of the evening was occupied in playing whist, the prizes being won by Miss Ethel Wilson, girls first; Miss Muriel Naylor, ladies' first; Miss Jean Pattinson and Miss Emma Antel tied for the "booby" prize, the former winning the out. Mrs. Sid Short won the lady's "booby."

A one-act sketch was played, in which the parts were taken by Mr. and Mrs. Arthur E. Graham and Reggie Jones.

On Friday, Oct. 28, the Coleman Young People's Club held their first regular meeting.

After some 31 members were in, the election of officers took place, as follows: Ted Fisher, president; Mae Bell, vice-pres.; Jim Cousins, sec. treas.; Entertainment committee, Rag Jones, Irene James, Mary Haman, Clarence Huffman, Mrs. E. Reid, Athletic committee, John MacDonald, A. S. McLintock, Mae Bell, Pearl MacDonald. Dramatic committee, A. E. Graham, Marjorie Halliwell.

It was decided that a competition be held for naming the new club.

After all business was finished Reg Jones and his merry entertainers served a delightful supper. The meeting closed with a dance.

Next week the entertainment committee plan a surprise program, so anyone interested in joining please get in touch with any of those mentioned above.

Rally Day at United Church

Rally Day service was held at the United church on Sunday morning J. Fairhurst, superintendent of the Sunday school, president, and William Lea was organist. Those who took leading parts were Earl Bowen, assistant superintendent, Allen Short and Audrey Dunlop.

Mr. Taylor, in a stirring address, challenged the school to a new alignment in Jesus, using as his words "Come On!" The words, he stated, had a sacramental meaning, since during the years 1914 to 1918 they were uttered under circumstances that called men to the greatest adventure and the display of the highest courage.

At the evening service Mr. Taylor preached a forceful sermon on "Christ's Call to Youth." Many young people were in the audience, also a large number of men.

Lad Given Severe Reprimand

A young lad named Youschuk of Coleman was given the benefit of the doubt in a charge of stealing brought by the Crown. Certain goods were stolen from the store of the Coleman Hardware Co. early this summer, and goods alleged to bear the price marks of the store, were found in his possession at his home. R. F. Barnes for the defence claimed the goods might have been purchased. The judge, in dismissing the accused, gave him a severe talking to, pointing out the danger of the course he was pursuing, and giving him the benefit of the doubt.

St. Alban's Church Notes

Next Sunday, the 24th after Trinity, services will be: 11.15 a.m. Holy Communion, 12.30 p.m. Sunday school instead of 2.30 p.m. as heretofore.

The Hallows' end dance held on Monday night by the tennis club in the Grand Union hotel was attended by a large number of people, other towns being represented. Music by the well known Arcadians six piece orchestra kept the dance swinging merrily along from 10 p.m. to 3 a.m.

Work on New Airport

A Canadian Press despatch from Ottawa states that as part of the Federal unemployment relief work airports and landing fields will be built at several points in British Columbia, and at Coleman and Pincher Creek. More good news!

A Remarkable Record

A suggestion has been made on various occasions that recognition be made by the school board of what may constitute a Canada-wide record for regular school attendance. For nine years she has not been late or absent, a record which will be hard to equal. This record is held by Helen Hancock of Central school.

Local News

Mrs. Wm. Whittaker of Coal Valley, Alta., is visiting her parents, Mr. and Mrs. J. O. C. McDonald.

Some of the hockey players are itching to get going. On Tuesday several went to Crow's Nest Lake to skate.

The Boy Scouts doll house on display in Rushton's store is a tribute to the enterprise of Allie Derbyshire, Johnny James, and George Derbyshire, Jr., who helped the boys in their handiwork. Adam McLintock wired it for electric light. If you want a chance to own it, a ticket will cost 25c, and it will make a fine present for some little girl.

Personal greeting cards save you trouble. With your name and address printed, with an appropriate greeting, they cost very little more than if you bought individual cards. Phone 209 and sample books will be sent to your home. About 300 samples to choose from—Coleman Journal.

Mrs. W. Antrobus recently went to Powell River, B.C., where she will spend some time with her daughter, Mrs. Alex Dunlop. For some months Mrs. Antrobus has suffered from poor health, and it is hoped the stay at the coast may prove beneficial.

Board of Trade Meeting Defers Annual Election of Officers

Various Topics of Community Interest Discussed But Small Attendance Reason for Non-Action

The Board of Trade held its annual meeting on Oct. 19, with the following present: O. E. S. White, Dr. Borden, J. A. McDonald, Mrs. Ferguson, A. M. Morrison, A. Reid, Mr. H. T. Halliwell, president, and W. L. Rippon, secretary. Owing to the small attendance, the president's report was held over till a further meeting. The secretary's report reviewed the work of the board, correspondence, and other matters since the previous meeting, and the financial report showed a small balance to the credit of the board.

Various matters, such as tourist camp, tree planting, town improvements, signs to be placed east and west of town bearing the name of the town, advertising in the Red Trail folder, and other matters of interest were discussed informally.

Election of officers for the ensuing term was left for a later meeting.

Girl Guide's Tea

A merry group of Girl Guides were as busy as bees last Saturday morning preparing for their tea and pantry sale in the United church club room. Tables were decorated with ferocious black cats and other symbols of Halloween, ghouls faces carved in pumpkins stared cross-eyed at you, and other grotesque designs added to the attractions. The "hot dawg" stand proved popular, and a visit to the tea was enjoyed by those who turned out to help the girls. The girls were quite elated over the financial success and appreciate the support of all who attended. Over \$33.00 was taken in from the tea and sale of cooking.

Marie Olson, formerly of Coleman, now of Midnapore, won the governor-general's medal for general proficiency in her school. Congratulations to Marie!

"Fresh from the Gardens"

Lest We Forget.

Fourteen years have come and gone since that momentous eleventh hour of the eleventh day, of the eleventh month of 1918, when the armistice ended hostilities in the greatest war in the history of mankind became effective. Once again the people of Canada observe "Remembrance Day,"—a day on which they pay tribute to the memory of the thousands of their fellow citizens, men and women, who gave their lives in a cause which to them, and to us who survive, was a sacred, a noble cause, namely, a war to end war.

But as we look back over those fourteen years, and as we view the state of the world today, we are perplexed as we seek an answer to the question: Has war, after all, been ended? We are disturbed and suffer disquietude as we contemplate the present world situation. Were the sacrifices of 1914-1918 all in vain? Is something worse to follow?

The nations of the world have not disarmed; quite the reverse is true. Armaments are greater and more deadly today than they were in July, 1914. There have been numerous attempts to reduce armaments, but none to do away with them altogether, and the attempts at reduction have been feeble and for the most part ineffective.

Under the terms of the Peace Treaty Germany was disarmed, and her allies reduced to a position of impotence for the time being. But in disarming Germany, the Allies tacitly agreed to bring about world disarmament. They have failed to do so, and now Germany is insisting on one of two things, either that the Allies proceed to disarm or that Germany be permitted to re-arm. The German demand is a reasonable one. The Allies cannot expect to hold a great, proud and powerful people in the position which the German people are forced to occupy at the present time.

What is to be the outcome? Will the Allies at last make a real, a determined, an honest attempt to disarm? If they do not, they will either have to agree to the re-arming of Germany, or that country will proceed to re-arm without their consent, and who will, or can, stop her?

But did the World War end war? As a matter of fact, is not the war still in progress, but in another form which is bringing ruin upon all nations and imposing huge and incalculable losses and intense suffering upon millions of people? The weapons now employed are not bullets and bombs and bayonets, but extreme nationalist policies of many kinds,—restrictive trade measures, prohibitive tariffs, trade quotas, immigration quotas, with each nation striving to promote its own interests by working some harm to other nations. Where do we find two nations working in cordial co-operation to advance, not only their own welfare but the welfare of each other, and the world at large? Rather, are not the nations engaged in waging war upon each other actually solved by the motive of the survival of the fittest?

Narrow nationalism kept alive, and in turn keeping alive, racial and religious suspicions, passions and bitterness, rules today, with every nation excusing its own selfishness, its own narrowness and bigotry, on the ground that other nations started it, are worse than they are, and that they are merely providing needed self-protection for themselves.

So we find Russia, while teaching its farmers and workers how to build and use tractors, at the same time instructing them in the mechanism and operation of tanks for use in war. We find democracy overthrown in Italy and a war-like dictatorship set up. Fearing each other, the other countries of Europe adopt policies the result of which is ruin to the agriculturists of Canada, the United States, and all of the great food exporting countries of the world. The United States and France grab all the gold in the world and store it away in vaults indifferent to the fact that thereby they bring financial chaos upon the world. Each nation is out to kill the trade of all other nations, and they have succeeded to the extent that tens of millions of men and women are thrown out of work.

It is a disheartening picture, and no one nation seems to have the courage to face it, grapple with it, make a break in its vicious circle, and attempt to cut the cords which are throttling and strangling mankind. Instead, the old, threadbare excuse is given and acted upon: "the other fellow is doing it, he is to blame, and I must follow suit or be submerged."

If this attitude is maintained much longer complete world collapse is inevitable. Conditions resulting are nothing but a hotbed in which anarchy thrives and grows apace. All the enemies of law and order, all the fanatics with pet but unsound theories of their own, are preying upon the public in all countries, promising to create utopias if the people will only arise en masse and destroy everything now existing, and which has been built up out of the labor, the experience, the sufferings of the generations of the past.

It is the whole system that is wrong, so these agitators declaim, but nothing is quite so wrong as such statements. It is not the system that is wrong, although all systems it must constantly change and improve in an ever-changing world to meet conditions as they, too, change. No, the fault lies in the hearts and minds of people themselves. They still maintain their old suspicions and dislikes of each other; they have any race and language but their own, they scorn any religion but their own; each nation suffers either from fear or a superiority complex because one or the other is the predominant trait of character of the individual men and women who make up the nation. It is the individual view which finds expression in purblind national policies.

Many of the politicians and statesmen of the world, the men chosen to direct national and international policies, realize the situation and left to themselves would be able to accomplish much to remedy it and remove the danger which is imminent, but their people will not support them; the masses would sweep them aside and put others in their place to continue to insist upon policies of extreme narrow nationalism. It is their own suffering they are thus determined to maintain, and their ultimate undoing which they will bring about, unthinkingly, heedlessly, and from purely selfish motives.

New Source Of Revenue

Enterprising saleswomen of London, England, combined pleasure with business this year by lending their cars with dresses and lingerie, which they sold to people in the rural districts during vacation trips. Two titled girls who started on a tour through Yorkshire sold out their stock within a week.

Easy To Figure Out

"I suppose, like many other husbands you can't say what your wife pays for her hats and dresses." "Oh, yes, I can—too much." "But joking aside, have you ever stopped to figure out how much your wife's clothes cost you?" "It isn't necessary. I simply add my income to what I owe."

All Her Children Were Troubled With Diarrhoea

Mr. J. B. Bickert, R.R. 1, Enderby, B.C., writes:—
"Last Summer all my children were troubled with diarrhoea, and were so bad I did not know what to do. A friend told me to give them Dr. Fowler's Extract of Wild Strawberry, so I got a bottle, and after a couple of doses you should have seen the change. The children were soon well again, and I am very thankful to your wonderful remedy. I find it the only one that relieves so easily and quickly."

British Scientists Make Remarkable Discovery

Find Caterpillars Cause Of River Waters Turning Black

A remarkable discovery was made by British scientists in the Eden-bridge and Oxted district of Kent and Surrey recently. Quite unaccountably, the waterways in this area were rapidly being turned black, and it was alleged that pollution from sewage farms was the cause.

As a result, the department of botany of the British Museum was invited to probe the mystery. Samples of water were taken from the streams at various points and analyzed, when the sewage farms were exonerated, as the same ingredients were present both above and below the outfalls.

It was then noticed that paths and roadways alongside the streams, and overhanging by oak trees, were thickly covered with a sooty material consisting of partially digested leaves which had been devoured by millions of caterpillars of the genus *Agrotis*.

By a very odd coincidence, this substance, washed down by natural drainage, had combined chemically with certain salts in the stream water, and the result was the manufacture of a natural ink.

This insect is quite capable of destroying an oak forest, but fortunately there is a natural check in the shape of a birdless fly known as the empis, or little hawk fly, which preys on the adult moths and is thus of immense value in saving thousands of pounds worth of native timber. Tilt-Bits.

World's Grain Show

British Empire Farmers' Co-Operative To Show At Regina

The Empire Farmers' Co-Operative, Limited, will be represented both by exhibit space and by delegates to the world's grain exhibition and conference opening at Regina in July next year, according to a cablegram received at headquarters' office of the exhibition and conference.

The Right Hon. Lord Strathclyde, chairman, who with two of the directors will attend as delegates, expressed the opinion that an excellent opportunity is thus provided to meet, to confer with and to present the scope and advantages of the Empire Farmers' Co-Operative to farmers of all parts of the Empire. Exhibit space in the new grain show building has been booked for the organization.

This will be used for the presentation of such reports as may be of interest to farmers and for convenient distribution of literature.

Technical Education

Explains Delay In Giving Effect To The Vocational Act

"Some delay has occurred in bringing the Vocational and Technical Education Act into effect by reason of the fact that the necessary regulations governing the act are still under consideration by the government," reads the communication explaining the status of this legislation from Hon. W. A. Gordon, Minister of Labor, tabled in the House of Commons. The letter was dated last March, and was in answer to protests from the Alberta School Trustees' Association against the delay in giving effect to this 1931 legislation.

Cost Of Direct Relief

Per Capita Cost In Regina Is Given As \$7.90

The per capita cost of direct relief in Regina during the period from May, 1931, to April, 1932, for food, clothing and shelter, was \$7.90, according to information given recently by Hon. J. A. Merkle, Minister of Labor.

This figure which represents an expenditure of \$29,566.53, does not include administration costs, drugs, medical attention or railway fares.

An Oil For All Men—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

When the Chinese New Year comes around, the Chinese make a point of paying their debts. Do they need further civilization?

At 452 degrees below zero some of the metals, such as silver and copper, lose their resistance to electricity and become super-conductors.

Boxing matches and motion pictures are now the preferred types of amusement in Paris.

Barley In Export Trade

Production Now Amounts To Nearly 150,000,000 Bushels A Year

The production of barley in Canada is rapidly increasing and now amounts to nearly 150,000,000 bushels a year. The principal uses for barley in the export market are: Feed for Livestock; Pot and Pearl Barley; Rolled Barley; Barley Flour and Barley Meal; Breakfast Foods; Malt Food Products; Malt Coffee and Barley Coffee; Malt Flour; Malt Extract; Fermented Alcoholic and Non-Alcoholic Beverages; Distilled Alcoholic Beverages and Solvents; Industrial Alcohol; Malted Stock Food; and Yeast.

A special study of the particular needs of that section of the market, which the producer seeks to serve, is essential to the satisfactory development of export trade.—Department of Agriculture, Ottawa.

Street Named After Canadian Captain

One Of Churchill's Thoroughfares Will Be Called Bernier

One of the streets of the new town-site to be opened at Churchill next spring has been named after a living Canadian, Captain J. E. Bernier of Lewis, Que. He is the only Canadian now alive to be given this recognition in the building of Canada's new northern port on Hudson Bay. All the other streets have been named after explorers and navigators of the north lands long since departed.

Worms, by the irritation that they cause in the stomach and intestines, deprive infants of the nourishment that they should derive from food, and mal-nutrition is the result. Miller's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutrition of the child is assured and development in every way encouraged.

Trinkets Belonging To Edger Wallace Sold

Several Things In Collection Bought By Late Author's Wife

A collection of jewelry which belonged to the late Edger Wallace, novelist, brought in a total of \$1,250 in London. The sale was "by order of the receiver, Edger Wallace administration." Mrs. Edger Wallace bought several of the items for members of the family. An engraved gold cigarette case weighing about seven ounces brought \$175. A suite of cash-olone and diamond square sleeve links and two studs sold for \$400 and a platinum watch for \$105.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Exterminator will clear the stomach and intestines and restore healthfulness.

Have British Captains

Ninety per cent. of all Chinese ships have British captains and most of them are British registry with the union jack painted all over the side to warn pirates away.

Douglas' Egyptian Liniment is unrivalled for speedy relief in muscular rheumatism, lame back, inflammation, burns and felons.

Here's to the man who plans things—Builds things—makes things; Who prattles not of wonders of old Nor gloats over ancestral gold; But takes off his coat and takes hold And does things?

"When you stop growing at both ends and start in the middle you are an adult."

Life Is Dedicated To War Memorial

Book Of Remembrance To Be Illuminated By Montreal Mass

A five-year task of illuminating the Book of Remembrance which will contain the names of the 68,000 Canadian men and women who died overseas from August 1914 until the disbandment of the Canadian Expeditionary Force in 1922 is the life-work of William Purves, who exhibited a rough sample of the proposed Book in the McGill University Library here. The completed work will be placed in a specially-built vault in the Peace Memorial Tower in the Parliament Buildings at Ottawa.

"The work I am now engaged on is my life-work," said Mr. Purves when interviewed. "If I live the next five years to finish the job I shall feel that my life has not been spent in vain."

The Book of Remembrance containing 450 leaves of the finest calf-velum will be bound in purple Morocco leather, mounted on solid gold and engraved with the Canadian Coat of Arms. The 68,000 names will be inscribed by hand on the parchment the work of several men, but 15 pages will be fully illuminated by Mr. Purves.

He intends to tell pictorially, year by year, the story of the war; for instance, the theme for 1914 will be the carrying of troops by the navy, for 1915, the pouring in of men from every province to aid their country, and so on. Mr. Purves also plans to work into his illuminated pages many authentic scenes showing the pleasures and pastimes of the men overseas.—Montreal Correspondent Canadian Press.

Asthma Victims. The man or woman subject to asthma is indeed a terror to himself. He is more terrified than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. K. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Unemployment Measures

Relief Figures For Five Cities Tabled In House

A total of \$2,996,140 was disbursed to the cities of Vancouver, Calgary, Regina, Toronto and Quebec from last March to date under the government's unemployment and farm relief plan, according to a return tabled in the House of Commons. This sum was distributed in part in direct relief and in public works.

The totals for the various cities follow:

Vancouver	\$ 772,484.13
Calgary	630,600.84
Regina	334,044.78
Toronto	1,006,713.44
Quebec	252,297.35

Must Study Japanese

The study of the Japanese language is made compulsory under new regulations announced for all primary schools in Fengtien province, of which Mukden is the capital. Similar regulations are being enforced throughout Manchukuo.

Cambridge, England, is to have a new \$2,500,000 library building.

Discovery Will Aid Radium Production

Formula For Treatment Of Ore Developed At Ottawa

It is anticipated that as a result of the development of a formula for the treatment of Canadian pitchblende ores, production of radium in its commercial forms can be carried out on a larger scale in Canada, with simpler processes and lower costs than anywhere else in the world.

Referring to the possibilities of the formula which was developed in the mines branch, Hon. W. A. Gordon, Minister of Mines, said:

"Fortunately for the new field, and fortunately for humanity, the Canadian process will permit as great, if not greater, percentage of recovery, involving a shorter time and less complicated operations than any of the known methods. I have every confidence that Canada not only will be able to supply our own needs for therapeutic, scientific and commercial purposes, but we will be able to enter the world markets in competition with any existing monopoly."

Valveless Motor Device For Boats

Vast Alterations In Engine Production Seen By Inventor

Invention of a valveless four-cylinder motor for boats is claimed at Indianapolis, by John Irvine, who says he worked eighteen years on the project. Irvine believes the invention may result in vast alterations in engine production.

Valveless motors of two cylinders are in use, according to Irvine, but four-cylinder engines failed because of sticking of cylinders. Irvine said he had overcome this difficulty and found his invention to be a success in several tests.

The motor is water-cooled and is capable of driving a small craft 40 miles an hour, according to its inventor.

Irvine said he believed that with a few additional improvements his motor could be adapted to aeroplanes and automobiles.

Smith—It must be nice to own a car.

Mittler—I know it should be, but I've never enjoyed it. Either the car is being repaired, or else I am.

Three presidents of the United States—Martin Van Buren, Millard Fillmore and Theodore Roosevelt—were born in New York state.

EVEREADY

Good news for owners of battery powered sets! Eveready Layberrill "B" batteries are now selling for 25 to 30% less than last year's!

Put pep into your radio. There's nothing like Eveready Layberrill's singing up reception—there's no other battery packed so full of active, current making material. Every inch of space produces power. There's no waste space. It's all battery—all value. Look for the name Eveready.

RADIO BATTERIES

Scaling Down Of Debts Is Advocated By Alberta United Farmers

Calgary, Alberta.—A conference between provincial and federal governments to consider scaling down of debts of farmers to a level compatible with revenue earned by farm products as at present was urged by the executive of the United Farmers of Alberta over the week-end as it continued its sessions. Placing the dollar on a level with the British pound sterling and a measure of inflation also were advocated.

Request for the conference between the government representatives and the monetary suggestions will be embodied in a memorial to be sent to the federal government and the Alberta government within the next few days. Copies will be sent to the United Farmers of Ontario, the United Farmers of Manitoba, and the United Farmers of Canada, Saskatchewan section.

Decision to prepare the memorial was made after lengthy discussion on farm conditions generally and it was decided to point out in the memorial that farmers contracted large obligations when prices for farm products were high. Through no fault of the farmer, prices had slumped but the obligations acquired were still as high as when contracted and carrying heavy interest charges.

In view of present economic conditions, the executive declared scaling down of debts was imperative if farmers were to continue operations. Lowering of interest charges and exemptions from payment of certain debts was deemed vital.

Break Trail Toward Peace

Five World Powers Are Working On International Problem

New York.—Five world powers—Great Britain, France, Russia, United States and Japan—are breaking trail toward new alignments intended to promote peace and security.

As reflected in Canadian and Associated Press dispatches from several capitals, their activity also introduced three powerful factors into the international problem. These factors were: Improved relations between Russia and Japan despite the troublous Manchurian that lies between them.

The proximity of a treaty of non-aggression between France and Russia stipulating that France will give no aid to a country attacking Russia, and vice-versa.

Cyclone Hits New Zealand

Auckland, N.Z.—A cyclone left a trail of destruction many miles long and about 300 miles wide in the Warkworth district. Buildings were razed, roofs torn off, trees uprooted and general havoc wrought. There were no deaths or serious injuries.

Hunger Marchers Stage Demonstration In London Streets

London, England.—Two thousand hunger marchers, converging on London from all parts of the island, reached their goal in Hyde Park, traditional home of free speech, and precipitated the most boisterous riot London has seen in years. A score were hurt, nine requiring hospital treatment.

Singing revolutionary songs, the jobless demonstrators swung through London traffic behind the banner of the Communist hammer and sickle. Up to the Marble Arch which leads into the park from Great Cumberland Place they marched through lanes of mounted police.

A squadron of police moved their horses to press back the crowd. Somebody threw a brick through the office window. It was the signal for battle. Men and women in the mob screamed defiance at the police. The mounted men charged and the mob fell back only to form again. Bricks and stones whizzed past the policemen's heads. Dozens of windows were broken. The rioters pulled branches from the trees in the park and tore up the park railings as weapons.

When the shouting and the tumult of the riot was at its height mobs formed inside the park and threatened the police from the rear. For a time it looked as though things might get out of hand. The police, however, had made elaborate preparations for just

Canada Assured Of Large Lumber Market

But Full Advantage Cannot Be Taken For Some Time

Ottawa, Ont.—Assured of a large potential market for lumber in the United Kingdom under the new trade treaty with that country, Canada will not be able to take full advantage of it for from three to five years.

This statement was given by the House of Commons by one of the leading operators of northern Ontario and the chairman of the committee which represented the Canadian lumber industry at the Imperial economic conference, George B. Nicholson (Con., Algoma East).

It was one of two conflicting views on the effect of the treaty on the lumber industry given the House in the course of the debate on ratification of the treaty.

A. W. Neill, (Ind., Comox-Alberni), said the lumber preference would be of no value to Canada because Scandinavian countries, operating on depreciated currencies, could still undersell Canadian lumber.

Mr. Nicholson said the potential market for Canadian lumber obtained would amount to more than 1,000,000,000 board feet. The British market at the moment, was saturated with lumber from Russia and central Europe and Canadian lumber had not sufficient stock on hand to satisfy the British market.

Prince Going To Ireland

Will Open New Parliament Buildings At Belfast

London, Eng.—When the Prince of Wales visits Belfast to open the new parliament buildings November 16, he will travel on a passenger steamer from Liverpool to the Demeray quay on November 16, accompanied by Sir John Gilmour, Home Secretary. Following the formal opening of the buildings the Prince will receive the freedom of the City of Belfast.

A guard of honor will attend his royal highness at the opening ceremony, composed of 150 of the Ulster constabulary. A salute of 21 guns by the Ulster division of the royal naval reserve will be given on the arrival of the Prince at Stormont Castle.

Says Capitalist System Fails

Toronto, Ont.—The capitalist system has failed and changes must be made to meet conditions—but the changes must be made in an orderly fashion, without violence or chaos. This is the conclusion of Sir Norman Angell, M.P., famous student of international politics and former journalist.

National Market Council

Would Study Trade Extension As It Affects Agriculture

Victoria, B.C.—Creation of a national market council with membership from each province to be co-ordinated with provincial committees was recommended at the agricultural conference here, attended by agricultural experts representing Dominion, provincial and university services.

National and provincial marketing bodies would make a particular study of trade extension as it affects agriculture, and would work with existing government services to promote development of internal and export trade, according to the recommendation, which will be forwarded to the Dominion and provincial government with the endorsement of the conference.

Russian Plan Is Ahead Of Last Year

But Increase Planned For 1932 Not Half Reached

Moscow, Russia.—With the end of the first five-year plan only a little more than two months off, official figures published showed that Russia's industry as a whole accomplished less than half the increase planned for 1932, but still is running considerably ahead of last year.

The country's entire industrial production for the first eight months of this year, including heavy and light industries, timber and food industries, reached a combined average of 14.9 per cent, above the same period of 1931, as compared with a scheduled increase of 36 per cent. for the whole year of 1932.

Preparatory Conference

Conference To Negotiate Russo-Jap Treaty Is Called

Tokyo, Japan.—A preparatory conference to negotiate a non-aggression treaty between the Soviet Russian and Japanese Governments will be held here, the News Service Nippon Dempo said.

Count Yasuoka Uchida, Japanese foreign minister, conferred with Premier Makoto Saito and Sadao Araki, war minister, regarding the treaty. After hearing Ambassador Koki Hirota's report on the Russian attitude, Uchida ordered his office to start preparations for the treaty.

Provinces Will Be Aided

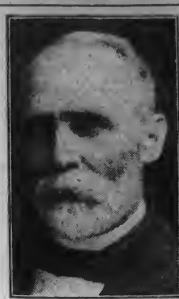

Federal Government Promises Help If Needed For Relief

Ottawa, Ont.—The government is not in a position to make any exact pronouncement or policy respecting unemployment relief, but if any responsible provincial government officials report their inability to care for the needy within their jurisdiction the government will take "adequate action," Hon. W. A. Gordon, Minister of Labor, told the House of Commons.

Depression Hits Shippers

London, England.—The annual report of Lloyds register on shipping revealed that the economic depression has laid up 15,000,000 tons or the equivalent of 20 per cent. of the world's total shipping.

ARCHBISHOP WORRELL

In order that the work of the Anglican Church in the Prince Rupert Ecclesiastical Province may survive the calamity brought about by misappropriation of funds by ex-Chancellor Machray, Archbishop Worrell, Primate of the Church, has initiated the opening of a fund to which the general body of bishops and clergy and members of the Missionary Society will be asked to contribute.

Lose Trade Advantage

Irish Free State Will Not Receive Benefit Of Preference After November 15

London, England.—The Irish Free State will lose the advantage of imperial tariff preferences in the United Kingdom on November 15, J. H. Thomas, Dominions Secretary, told House of Commons.

On that date, he explained, preferences granted goods from the Dominions under last year's tariff act will expire, and as the Free State failed to conclude any trade agreement with the United Kingdom at the Ottawa economic conference its exports to Great Britain will be accorded tariff treatment similar to that affecting goods from foreign countries.

Bad Stretch Of Road

Complain About Unfinished Section Of Trans-Canada Highway

Calgary, Alberta.—Criticism of a section of the Trans-Canada Highway in Saskatchewan was voiced here by A. C. Emmett, manager of the Manitoba Motor League who arrived to attend the annual convention of the western division, Canadian Automobile Association.

"We are at a loss to understand the attitude of the Saskatchewan government in leaving the section of the highway between Maple Creek and the Alberta border unfinished and without being maintained," said Mr. Emmett. "It takes five hours to travel this stretch and even bus services are hampered by it. Rainy weather transforms it into a quagmire."

Suggest Lower Wheat Acreage

Buenos Aires.—The Minister of Agriculture suggested that, at the impending world economic conference at London, England, Canada, Argentina, the United States and Australia consider the possibility of limiting wheat acreage for at least a couple of years.

Alberta United Farmers Executive Again Request Premier For Wheat Bonus

Noted Economist Resigns

Sir Walter Layton Leaves Committee Of World Conference

London, England.—Sir Walter Layton, noted economist, announced his resignation from the preparatory committee of the world economic conference because of a "serious difference of opinion" between himself and the British Government.

He said he had differed with Neville Chamberlain, Chancellor of the Exchequer, on "what further action is required in order to restore reasonable freedom to the movement of international trade."

Sir Walter does not think the government view that the desired result can be obtained through individual negotiations with foreign countries within limits set by the Ottawa agreements and subject to strict insistence on most favored nation rights will be successful.

Short Rail Haul

H.B. Route Offers Decided Advantages For Shipping Cattle To Britain

Saskatoon, Sask.—The short rail haul from the prairies to Churchill makes the Hudson Bay route most advantageous for the shipping of cattle to the British market, was the opinion expressed by Professor A. M. Shaw, dean of agriculture, at the quarterly meeting of the Saskatchewan Board of Trade. "The navigation season opens too late to permit of large movement of grain fed cattle," he said, "but affords ready and profitable outlet for grass fed prairie beef."

Dean Shaw was of the opinion that cross-bred cattle, developed through experiments carried out by the University of Saskatchewan, made it possible for Canadian packers to compete with Argentine in the chilled meat market in Great Britain.

Federal Aid Requested

Regina Thinks Government Should Share Expenses For Airport

Regina, Sask.—Dominion assistance in bearing part of the carrying charges on the Regina municipal airport will be sought by City Commissioner R. J. Westgate, who has gone absent. Mr. Westgate will be absent from the city for about 10 days. During that time he will attend a meeting of the Anglican Church in Toronto and will visit Ottawa on civic business.

It has been the claim of the city that the airport was developed to its present state because of the air mail service. Since this service has been discontinued, the port is no longer revenue producing and the contention is that of the fixed charges the Dominion Government should assume part.

Calgary, Alberta.—Refusing to withdraw any requests for a bonus on the 1932 wheat production, the United Farmers of Alberta executive sent a telegram to Prime Minister R. B. Bennett suggesting the bonus be paid and an issue of Dominion notes made to meet the cost.

Fully debating the bonus problem and the creditor-debtor situation of western farmers, the executive declared payment of the bonus was imperative to the welfare of the west as a whole and would benefit cities and towns as well as the farmers receiving the bounty.

Requests by telegram to the United Farmers of Canada, Saskatchewan section, and the United Farmers of Manitoba asking both organizations to take similar action were despatched along with the telegram to Prime Minister Bennett when the executive session came to a close. A telegram was sent also to Robert Gardiner, M.P. for Acadia, and leader of the U.F.A. group in the Federal House, informing him of the decision made and pleading full support of the action.

British Preference

Routing Made Regarding Canadian Shipments To Britain Via U.S.

Ottawa, Ont.—Canadian goods being shipped to the United Kingdom will receive the British preference if consigned directly from Canada to Great Britain, whether they pass through the United States or not.

Canadian goods consigned to the United States and then re-exported to the United Kingdom will not receive the preference. Premier R. B. Bennett made this explanation of the British tariff regulations in the House of Commons.

British custom commissioners have to have proof that the transit has been uninterrupted before the preference is granted.

Oil Company Withdraws

Montreal Firm Declines To Drop Russian Barter Scheme

Montreal, Que.—One party to the three-cornered aluminum products deal has decided to withdraw from the transaction. Joseph Elie, a director of LaSalle Petroleum Refinery Company, has announced his company will not accept further shipments of oil.

"There seems to have been some dissatisfaction about the whole deal," Elie said. He did not, he said, wish to "be bothered" with any more of the business.

Ottawa, Ont.—Complaints in connection with the quality of the Soviet oil imported recently into Canada are being investigated, the Prime Minister told Hon. Ian Mackenzie (Lib., Vancouver Centre), in the House of Commons.

Far-Reaching Changes In Operation Of Canada's Railway Systems

Ottawa, Ont.—The "Canadian National Canadian Pacific Act of 1932," containing legislation designed to bring about far-reaching changes in the operation and conduct of the Dominion's transportation systems, was introduced in the senate recently by Rt. Hon. Arthur Meighen, government leader.

Following the recommendation contained in the report of the royal commission on railways and transportation, of which Mr. Justice Lyman P. Duff, of the Supreme Court of Canada, was chairman, the act is divided into three parts.

Part one deals with reorganization of the Canadian National system. It provides for replacement of the board of directors by three trustees, one of whom the chairman will devote his full time to the work, and whose tenure of office will be seven years. The salaries are not fixed in the act.

The trustees will have full power to control the Canadian National without consultation with the shareholders or with the government, and will appoint managing officers, including a president, who will be responsible only to the trustees.

Part two deals with co-operation

between the Canadian National and Canadian Pacific and orders that the two systems take whatever steps desirable to eliminate, consistently with the proper handling of traffic, unnecessary duplication of services, to avoid duplication of services, and to make joint use of facilities wherever advisable. No authority for any amalgamation of companies is given.

Part three sets up a tribunal to deal with the disagreements between the two systems. This body will be composed of the chief commissioner of the board of railway commissioners for Canada, who will be presiding officer, and one representative each from the Canadian National and Canadian Pacific.

In disputes of "major importance" which the chairman may decide to appoint two additional members to the tribunal. In the event of any conflict between an order of the board of railway commissioners and the tribunal, the order or decision of the tribunal shall prevail. Appeal from its judgments will be to the Supreme Court of Canada.

W. N. U. 1966

It is understood from the British Home Office that communist organizations are responsible for the attempt of an army of unemployed men to disrupt the Parliamentary session which is at present in progress. Above is a good photo of the Mother Parliament, while inset is Premier MacDonald, who is endeavouring to overcome what might be a serious disturbance.

NOTES AND COMMENTS

An equally important factor in school life, besides teaching, is character building. True, it may be neglected in the home, but the example of a teacher lingers throughout life, and if the influence has been for good, the teacher or master may assume in the mind of the pupil the status of a pattern to follow in after life. There are many good teachers most adults will recall, who in schooldays were in a sense boy or girl heroes. They were a very vital factor in character building. Their influence remained long after they passed on. Unconsciously they influenced many of their pupils, not to greater efforts to excel in lessons, but to practice habits of incalculable value which as they progressed through life were of benefit to others as well as themselves. Young people are very observant of many things older people overlook; they are impressionable, their minds are moulded by example. How important it is that equally as much thought be given to character building as to cramming young minds with more than they can readily assimilate.

Thought precedes action, unless you are so startled by an unexpected happening that you do not have time to think. But in the normal sense, before we do anything, we have given it thought of some kind. If somebody should hit you in the eye, you would likely hit back without giving the matter a second of thought. Action would be spontaneous.

Many never think. Work is never planned. They do not know overnight just what their line of action will be next day, because no plans are made. If they follow a regular job, then it is just work they are going to next day—nothing else, just work.

Yet even among those who have regular jobs, there must be some planning if they are to get the best results. And the fellow who plans to systemize his work becomes a more valuable employee than he who just works. One advances in his trade or profession; the other just stays in the same old place.

Too many require prodding along to do even their regular jobs or their duty. And the type that lags is not confined to those engaged in manual labor. There are many who though they are supposed to earn their living by thinking and teaching, are mental laggards.

We are reminded of this by listening to some public addresses. It requires little experience to perceive that the speaker has given thought, or has not, to his utterances. Some imagine they can hold an audience by just speaking on anything that may come to mind. There may be some speakers who are sufficiently quick thinkers to do so, but the majority require to give considerable thought before giving an address, if it is to hold the attention of an audience. Nothing is more boring or a greater time-waster than listening to a lot of words which convey not one constructive idea.

And speaking of speeches, the radio has carried a lot during the presidential campaign in the United States. President Hoover has been hammering Governor Roosevelt, the Democratic nominee, and from this side of the international boundary appears to have the best argument why he should be returned to office. Our sympathy is with the president in his fight to overcome the effects of the depression. Last Friday night Senator Hiram Johnson speaking in California let off some of the most violent hot stuff of the campaign in blaming the administration for present conditions. 'Tis absurd to blame any one man or any one government. The whole world had a hand in bringing about this depression, and it must take a hand in overcoming it, no matter what political candidates may say in blaming the other fellow.

Provincialism, also too intense nationalism, curtails business between peoples. Hon. W. A. McKenzie, minister of mines in British Columbia, was critical because centres in the Kootenays were purchasing coal from outside of the province. The Kootenays imported 70,000 or more tons in 1931. Superficially British Columbia cities have been disloyal to their own coal industry. But the shoe might pinch more tightly were British Columbia mines prohibited from exporting coal to other provinces. Coal Creek and Fernie coal is used in Alberta, in Saskatchewan and Manitoba. Were Mr. McKenzie's argument sound, that B. C. should use only B. C. coal, then Saskatchewan might retort with using Saskatchewan lignite, and the C.P.R. would use in Alberta steam coal mined in Alberta. We all sympathise with Fernie in its plight, but to hedge each province around with a barrier for trading purposes would be disastrous.

Another factor Mr. McKenzie overlooks in his comparisons is that points which can purchase domestic coal at prices comparable with steam coal will, for convenience, use domestic coal.

Here and There

A total of 120 sailings to and from Halifax will be made during the coming season to the Old Country, the majority of which will be by Canadian Pacific steamships.

A rise in wholesale prices in Canada during September is considered to be one of the outstanding favorable events in the Canadian economic situation, according to a statement recently issued by the Department of Trade and Commerce.

Popularity of Canadian tobacco in the United Kingdom is increasing. For the eight months to August last, 8,950,568 lbs. of Canadian tobacco valued at \$2,545,389 was exported to Great Britain as compared with 4,917,128 lbs. valued at \$1,429,892 exported in the same period of 1931.

The Canadian silver production in 1931 was approximately 20½ million ounces, or 19.5 per cent of the world's computed production of 196 million ounces. Canada has for many years ranked third amongst the silver-producing countries of the world, being exceeded by Mexico and the United States.

New Brunswick is to stage the North American Cover Dog International Trials as an annual sporting event. Success of two days' trial concluded at Peterborough recently, has brought about formation of a permanent dog fanciers and owners association which has fixed dates for 1932.

Photographs of Bangkok's shrines, temples, statues, and other places of interest in Siam taken during world cruises by Canadian Pacific liners, are being taken to Bangkok for King Prajadhipok by the Siamese Consul-General in Canada, who sailed for the Far East on the Empress of Asia recently.

Hon. Herbert M. Marler, Canadian Minister to Japan, left for Tokyo recently aboard the Empress of Asia after a two-month vacation in Canada, strong in the belief that the Dominion is on the threshold of great trade developments in the East. With 500 million people in Japan and China, the possibilities, said the Minister, are incalculable.

China is on the eve of an era of tremendous development in railway expansion, engineering works and general trade, in the opinion of Major W. S. Nathan, chairman of the Pekin syndicate, who recently sailed on the Empress of Japan from Shanghai to Victoria en route for England. Rationalization and expansion of China's railways would be the first step in this expansion, he stated.

Three months in the unexplored regions of the Fairweather Range in Alaska, with mountaineering, airplane explorations, and skiing, was the unusual summer holiday of a party of Harvard undergraduates, headed by H. Bradford Washburn, Jr., president of the Harvard Mountaineering Club, who returned on Canadian Pacific "Imperial" train to his Alma Mater recently. "We had had luck with weather and snow," said Mr. Washburn, "but otherwise the party is bringing back some very interesting, having pictures of their experiences." (873)

GOVERNMENT OF THE DOMINION OF CANADA

4% LOAN—1932

The Minister of Finance offers for public subscription

\$80,000,000

Dominion of Canada 4% Bonds

Bearing interest from 15th October, 1932, and offered in two maturities, as follows

\$25,000,000—3 YEAR 4% BONDS, DUE 15th OCTOBER, 1935

\$55,000,000—20 YEAR 4% BONDS, DUE 15th OCTOBER, 1952

Subject to redemption at par and interest on or after 15th October, 1947

Principal payable without charge, in lawful money of Canada, at the office of the Minister of Finance and Receiver General of Canada at Ottawa or at the office of the Assistant Receiver General at Halifax, Saint John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria.

Interest payable half-yearly, 15th April and 15th October, in lawful money of Canada, without charge, at any branch in Canada of any Chartered Bank.

Denominations:

3 YEAR BONDS, \$1,000

20 YEAR BONDS, \$500 AND \$1,000

The proceeds of this Loan will be used to retire \$34,449,950 of bonds maturing 1st November, 1932, and to provide for the general purposes of the Government and the Canadian National Railways.

The Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge on the Consolidated Revenue Fund of Canada.

The amount of this issue is \$80,000,000. The Minister of Finance, however, reserves the right to allot or reject the whole or any part of subscriptions received, provided such allotments do not increase the principal amount of the issue by more than \$25,000,000.

Applications will not be valid on forms other than those printed by the King's Printer.

ISSUE PRICE: 3 Year Bonds, 99.20 and interest, yielding to maturity 4.28%
20 Year Bonds, 93.45 and interest, yielding to maturity 4.50%

Payment to be made in full at time of application or in the case of the 3-year bonds, on allotment.

Subscription lists will open on 31st October, 1932, and will close on or before 16th November, 1932, with or without notice, at the discretion of the Minister of Finance. Subscriptions will be received by any branch in Canada of any chartered bank and by recognized dealers from whom official application forms may be obtained.

DEPARTMENT OF FINANCE,
Ottawa, 31st October, 1932

Stability of Canadian Government Bonds

The high degree of safety inherent in bonds of the Dominion of Canada tends to make their price a very stable one from year to year. While many securities may fluctuate violently, Dominion of Canada bonds vary little comparatively. Even in the difficult financial situation that developed after England went off the gold standard, with an immediate decline in Canadian exchange, and heavy liquidation of securities, the reaction in Canadian bonds was relatively small to that of most other securities, and with the revival of confidence financially, the prices of these bonds recovered rapidly to their former levels. With the tendency of interest rates to go down, the prices of Canadian Government bonds have been moving up to levels well above those of one year ago.

Financial observers of repute are of the opinion that the long term trend of interest rates at present is toward lower levels, and this theory, if borne out, would result in rising prices for high-grade bonds. It has been quite usual, financial history shows, to have high interest rates during and immediately after all great wars, after which there is a long period of lowering interest rates, and rising bond prices. The present appears to be one of these periods. If so, purchasers of long term government bonds today may reasonably expect a higher price years hence than those now prevailing.

Supreme Court at Macleod

The criminal sittings of the Supreme Court, presided over by Mr. Justice Ford, concluded on Oct. 28. C. Belik of Coleman was found guilty and fined fifty dollars or in default of payment, one month in gaol, on a charge of assault and occasioning grievous bodily harm at a miners' meeting in Coleman. The accused was allowed one week in which to produce the fine. M. Moscovitch of Lethbridge represented the defendant.

J. Nakoff of Coleman, charged with assault, had the charge against him dismissed by the court. M. Moscovitch for the defence.

P. Popniuk of Coleman was given two years' suspended sentence on a charge of assault and occasioning actual bodily harm at Coleman.

M. Yagos of Coleman was found guilty of fraudulently taking a horse and was sentenced to two years, suspended sentence. R. F. Barnes of Coleman defended the accused.

P. Youschok of Coleman was given the benefit of the doubt in a case of receiving stolen goods and was dismissed by the Court. R. F. Barnes of Coleman for the accused. D. Oleschuk of Coleman was sentenced to three months hard labor in the Lethbridge gaol on being found guilty of a charge of perjury. M. Moscovitch appeared for the accused.

J. D. Matheson, K.C., of Macleod was the representative of the Crown in all of the cases before the court.

The Rev. W. Barlow of the Anglican mission at Brockton, left last week for Long Beach, Calif., to recuperate after injuries received in an automobile accident on October 13th. The accident occurred while Mr. Barlow was enroute to Calgary, and when about six miles north of Macleod the left rear tire burst and the car overturned in the ditch. Rev. Barlow was injured internally, and his son, Walter, also received injuries, and was a patient in the Holy Cross hospital in Calgary last week.—Macleod Gazette.

A Special Offer

With orders of 25 Christmas Cards given before Nov. 15 at The Journal office, a cabinet of stationery with your initial embossed on same will be given free.

Calgary Diocese Campaign for Church Support

On October 24, Rev. Randall F. Powell, rural dean of Macleod, addressed a meeting of St. Alban's vestry at the rectory, placing before the members Bishop Sherman's appeal to all parishes to see that their assessments and stipends are paid by the end of the year.

Next year Diocesan grants to all parishes and missions will be reduced, and clergy stipends are to be cut 10 per cent.

Frank H. Graham and Frank G. Creagan, wardens, and members of the vestry assured Mr. Powell that a special effort would be made to see that Coleman balanced its budget on Dec. 31. A special appeal will be made to all church members to assist in this effort.

A similar appeal will be made at Blairmore, Mr. Powell having met the vestry there this week.

A Kind Act

60 boxes of apples from Lochiel Fruit Ranch, Creston, was the gift of Alex. Cameron towards local relief in Coleman. They arrived express prepaid last Friday night, and were distributed by Constable Houghton on Saturday. Last year Mr. Cameron made a similar gift, and his kind act is appreciated by the recipients.

WORLD HAPPENINGS BRIEFLY TOLD

Actual operations on the establishment of the trans-Canada chain of airfields began on November 1.

Over 50 French language weeklies in the province of Quebec have joined in formation of the "French Weekly Newspaper Association of Canada."

Over sixty per cent. of the creamery butter produced in Canada comes from two provinces, Ontario and Quebec.

Premier Benito Mussolini appealed to the United States to cancel or reduce the European war debts in an open air address at Turin, Italy.

Francis Harrar and resident of Winnipeg, Man., for half a century, Henry Nason, 76, is dead. Born in Weston, Ont., he came to Winnipeg in 1882.

Fourteen persons were killed when a floor collapsed in a house near Girga in upper Egypt while a wedding ceremony was in progress. The bride was one of the victims.

The Alberta Government and the Dominion Administration will be asked to render assistance in a scheme to provide flood control on the Bow River at Calgary.

A plaque bearing the names of 133 French soldiers who lost their lives during the siege of Yorktown 151 years ago has been unveiled in Paris, France.

The Dowager Marchioness of Lansdowne, widow of the fifth Marquis of Lansdowne who was Governor-General of Canada from 1883 to 1888, died recently in London, England.

Judge Holman Gregory was appointed common sergeant of the City of London in succession to Sir Henry Fielding Dickens, sixth son of Charles Dickens.

The decision whether all Canadian wheat shipped to United Kingdom ports shall enjoy the six-cents-a-bushel preference or only that going direct from Canadian ports is a matter for the British Government, Hon. H. H. Stevens, Minister of Trade and Commerce, said.

YOUR LIVER'S MAKING YOU FEEL OUT OF SORTS

Wake up your Liver Bile

—No Calomel needed

When you feel blue, depressed, sour on the world, that's your liver which is pointing its daily two pounds of bile into your bowels.

Digestion and assimilation are being slowed up, food is accumulating and decaying instead of making you strong and healthy.

More bowels move like malle, oil, mineral water, laxative candy or chewing gum, or roughage, don't go far enough. Carter's Little Liver Bile is the best cure. Safe. Purely vegetable. Bure Ask for them in Canada. India substitutes. 25c. at all druggists.

Canada's Bicycle Output

There were 18,429 bicycles manufactured in Canada in 1931. These were valued at the factories at \$485,636. Men's bicycles numbered 17,319 valued at \$458,631 and women's and children's totalled 1,110 valued at \$27,005. Bicycles manufactured in 1930 totalled 26,826 and had a value of \$706,386.

Customer—You said the tortoise I bought from you would live 300 years and it died the day after I bought it. Dealer—Now, isn't that too bad. The 300 years must have been up.

for COLDS

Sounds Like Magic

Press Button In High-Speed Restaurant and Food Appears

"No waiting" is the slogan of a restaurant just opened in Prague. Diners don't wait for the waiters, for there aren't any waiters to keep them waiting. As he walks through the hall of the restaurant the customer chooses his meal from gigantic menu boards hanging on the walls. Arrived at the office, he gives his order and receives a ticket with a number upon it. He then goes to the seat bearing that number.

Down the middle of the table runs a broad travelling band, and barely has he taken his place when his first dish comes bobbing along. He removes it from the band, disposes of it, and then places the empty plate and dishes upon another band beneath the table, which moves in the opposite direction. Meantime he presses a button and in a matter of seconds the next course appears. The dirty plates and dishes are carried by his hand to the washing-up department, whence yet another band takes them back to the kitchen. The price of a three-course meal is about twenty-five cents, and so well is the restaurant paying that its owner is talking of supplying another course for the same money.

Deserves The Honor

Earl Byng Earned Award of Field Marshal's Baton

General Byng had a remarkably good record as a commander in the great war and richly deserves the field marshal's baton that has been awarded to him. The Canadian expeditionary force served under General Byng, who, after the war, became governor-general of this Dominion.

When a British soldier is given "the baton," he reaches the highest rank in the army, that of field marshal. The baton is a short staff presented by the King as a symbol of office. No one is made a field marshal unless he is of royal blood or has rendered distinguished service.

The Alberta Government and the Dominion Administration will be asked to render assistance in a scheme to provide flood control on the Bow River at Calgary.

The Loneliest Island

Cunard Liner "Carinthia" To Visit Tristan De Cunha Next Year

Weather permitting, Tristan De Cunha, loneliest island in the inhabited world, will be visited by the Cunard World Cruise liner "Carinthia" while on her journey around the world, via the southern hemisphere, early next year.

A large quantity of food supplies will be sent ashore for the lonely islanders, and the captain of the "Carinthia" will offer a banquet to the islanders in the dining saloon of the ship.

It will be imagined with what pleasure the hundred and sixty inhabitants will look forward to seeing the "Carinthia," when it is realized that more than a year sometimes elapses without a ship calling here. When a ship called two years ago at the island, the natives said they still had plenty of canned sardines, epon salts, and Bibles. They requested poison for rats, their one mongoose being unable to make serious inroads on the hideous vermin.

Although the inhabitants frequently become depressed over the scarcity of food and long absences of ships, they always refuse to leave the island when offered land elsewhere. They are often without mail and newspapers for a long time and their food supplies are often insufficient because the soil and the sea give them poor support.

The island is the largest and the only inhabited one of a group of three, situated in the middle of the south Atlantic, and was named after a Portuguese admiral who discovered them in 1506. The main island, Tristan, is an extinct volcano, and rises 7,640 feet above the level of the sea. The crater summit is filled with fresh water. St. Helena, 1,320 miles north, is the nearest inhabited land, while Cape Town is 1,400 miles east, Buenos Aires 2,500 miles west, and the South Pole, 3,200 miles south. Until the middle of the last century the neighboring waters were visited by American whalers, but with the decline of the whaling industry these visits ceased. The whalers have been sadly missed by the Tristanites.

Five nationalities live on the island today—English, Scotch, Irish, American and Italian. They have intermarried, and of course, there are but few family names, there being four families named Glass, eight named Green, four named Rogers, two named Swain and five named Lavelle.

The only lights on the island come from lamps filled with oil made from the blubber of sea elephants.

Strange to relate, the people like poetry.

The temperature ranges from 70 degrees down to 40 degrees.

Edinburgh, the only settlement on the island, named for the Duke of Edinburgh, who visited the island in 1867, is on a plateau nine miles long and one and one-half miles wide. The settlement is 115 years old. A system of barter prevails, but there is no money.

Foreman (on excavating job): "Do you think you are fit for really hard labor?"

Applicant—"Well, some of the best judges in the country have thought so."

When meeting a car under such circumstances it is best to be guided by the illusion and slow down accordingly, but if caught in a situation where you are too late to avoid a collision by stopping it is well to know that the other car is not travelling as fast as it seems and that you can reach the crossing safely by speeding up a little.

Paul Whitehead defines a diplomat as a man who can give his wife a \$60 washing machine and make her forget it was a \$600 fur coat she wanted.

Established just a century ago, with a strength of 100, the City of London police force now numbers 1,200, and has its own wireless receiving station and "flying squad."

FAT MAN LOSES 63 lbs.

Kruschen and Walking

Overweight men who want to lose a pound or two will derive the benefit of this man's experiences. He gives them to us for publication:

"In a little over twenty months I have reduced my weight from 227 lbs. to 164 lbs., by taking a dose of Kruschen Salts every morning for six months, and taking walking exercise every day. This remarkable achievement is all the more interesting when one considers I did not resort to any form of dieting."—G. L. B.

You can take off fat with Kruschen Salts if you will take one-half hour in hot water every morning before breakfast, modify your diet, and exercise regularly.

While you are losing fat you will be gaining in energy—in endurance—in ambition. The old arm chair won't hold you any more—you'll want to be up and doing—you'll enjoy work and active recreation and you'll sleep like a top. You'll lose fat, and probably five years younger.

Canadian Wheat Exports

Volume Is Much Greater This Year Than Previous Season

For the first 11 weeks of the current crop year, exports of Canadian wheat totalled 53,650,000 bushels compared with 29,453,299 bushels for the same period of last year, according to a report issued by the Dominion bureau of statistics. For the week ended October 14, the total was 6,946,766. This was a decline from the previous week of nearly 1,000,000 bushels.

The following table shows the quantities exported and their channels of exportation in the first 11 weeks:

Montreal	10,322	1831
Vancouver	24,933,813	11,774,077
Churchill	13,198,374	8,012,760
Sorel	2,736,029	Nil
Quebec	5,623,852	1,785,267
Quebec	431,371	88,326
Victoria	314,627	544,799
Prince Rupert	677,813	Nil
U.S. Ports	5,746,000	7,248,000

An Optical Illusion

Experience Most Drivers Have When Approaching Intersection

A car coming from the right at a street intersection will always seem to be going faster than it actually is. This is an optical illusion produced by the action of yours and the other fellow's car arriving at the point of a "traffic wedge" at the same time. As the cars near the point of this wedge they seem to increase in speed, when as a matter of fact they may be slowing down.

When meeting a car under such circumstances it is best to be guided by the illusion and slow down accordingly, but if caught in a situation where you are too late to avoid a collision by stopping it is well to know that the other car is not travelling as fast as it seems and that you can reach the crossing safely by speeding up a little.

Paul Whitehead defines a diplomat as a man who can give his wife a \$60 washing machine and make her forget it was a \$600 fur coat she wanted.

Personal and Local

O. E. S. Whiteside and H. V. Hummel attended a meeting of directors of International Coal & Coke Co. Ltd. in Vancouver on Tuesday.

Mr. Fred Cooke, field secretary of the Navy League, was here this week on his annual visit securing subscriptions to the League.

The Catholic Ladies Aid will hold whist drives every Thursday evening in the Catholic hall. Good prizes and refreshments, all for 85c admission.

To-night a party of members of Elk River Masonic lodge plan to drive down from Fernie, and on Friday night a return visit will be made by a party from "Summit Lodge."

The local newspaper, without question, provides the best medium for local advertising, because it goes into the homes and is read by the whole family—and quite often it is mailed to other members of the family who have moved elsewhere.

Hallowe'en, the night when children equip themselves in grotesque garb and with a large bag or sack fare forth to gather gifts of apples, peanuts, candies and other things dear to their hearts, passed off quietly.

Kenneth White, inspector of airports and airways, Regina, and A. D. McLean, inspector of civil aviation, Ottawa, were here on Oct. 21, en route by auto from Calgary to Cranbrook. The latter is a brother of Dr. Keith McLean, of Coleman.

Of 140 people who sent in manuscripts to Hollywood, for talks, only six were accepted, of which Albert Knowles was one. A composition entitled "The Gold Standard," and "Prosperity is Coming Along," are by Mr. Knowles, which will be published.

Buy a Poppy from the Girl Guides in honor of Remembrance or Armistice Day. Large poppies 25c, small 10c. Those desiring poppy wreaths may obtain same by notifying Mrs. Borden, captain of the Girl Guides, or Miss A. Yuill, lieutenant. These poppies are made by disabled soldiers in the Veterans shops. Buy only Veterans poppies from the Girl Guides.

Remember Tues. Nov. 8, when Kev J. Victor Howey, B.A., of Milk River, will give a dramatic recital of Victor Hugo's great character, Jean Valjean, in "Les Misérables," in St. Paul's United church at 7:30 p.m. Proceeds in aid of the Women's Missionary Society and the Maintenance and Missionary Fund. Admission: 25c adults; 15c children.

The Caledonian Society held a meeting in the K. of P. hall on Friday evening, at which there was a fair attendance. A lantern lecture on David Livingstone, the noted African explorer, was given by Rev. Mr. Woods, of Bellevue. The usual tea and dance was held following the lecture, Mason's orchestra playing. Monthly meetings will be held during the winter, the next being on Nov. 25.

Beautiful local views in colors make unique greeting cards. See the samples at McBurney's drug store.

Special showing of Ladies Dressing and Coats, the very newest materials and styles, exceptionally good values. Mon and Tues., Nov. 7 and 8. We cordially invite your inspection.—F. M. Thompson Co., Blairmore. —44-11.

D. Gillespie, secretary of the local miners' association, received notification of the death of Mrs. Alexander Leitch at Kirkcaldy, Scotland, on Sept. 9. Her husband was one of the victims of the McGillivray mine explosion, Nov. 22, 1926. She leaves three children, two of whom are under 16 years. The compensation allowance paid to the mother will be paid to the guardian of the children till they reach 16 years of age. Mrs. Morgan, Lorne street, Kirkcaldy, is the guardian, according to a letter from David Usher, solicitor of that town.

On Monday evening a number of friends called at the home of Mr. and Mrs. J. Nash to congratulate them on the event of their 20th wedding anniversary. The evening was spent playing bridge. Mrs. J. L. Lonsbury winning first prize and Mrs. J. Nash consolation. The guests presented Mr. and Mrs. Nash with a sandwich plate and salad bowl in topaz glass. A delightful lunch was served, bringing a very pleasant evening to a close. Present were: Mesdames Borrowas, Milley, Ragner, Cox, Nielson, Emmerson, Bowen, J. L. Lonsbury, Mowdon, Al Lonsbury, and Miss Surtice.

Mrs. H. E. Gate's home was the scene of a happy birthday party on Oct. 24, when many of her friends gathered in honor of the occasion. Among those present were Mesdames J. Richards, H. Garner, W. Vincent, J. Atkinson, T. Blower, J. Hancock, W. Gate, D. Hoyle, W. Roughhead, G. Hope, A. Cornett. A gift was presented to Mrs. Gate, which she gracefully acknowledged. In the card games Mrs. Roughhead and Mrs. Vincent were

ANNOUNCEMENTS
